## About Us

The institute is committed to providing higher education par excellence and hence offers a variety of diploma, undergraduate and postgraduate courses in the field of Pharmacy, Law, Arts, Science, Commerce, Management, Education, and Social work.

It takes a lot of painstaking effort for a student and her guardian to decide on which institute to opt for spending their most important graduate and undergraduate years. And we, at the Dixit group of Colleges, understand it and are thankful to every student that puts her trust in us.

We are persistent and innovative in our efforts to cater to the well-rounded development of every student that decides to believe in us.

As educators, we want our students to become critical thinkers and adaptable learners. Hence, we promote personality development, research culture and practical knowledge to aid theoretical learning.

Our students are our pride and we are obligated to provide them with constant nurturing and unwavering motivation.
